NEGRO RACE UP IN FRONT.
In the great drive all over the country to make the second Liberty loan a success, one of the most marked efforts to do their proportionate share was that of the Negro race. They were eager to make it plain that their people are no less vitally interested than the white race in the success of the financial efforts of the United States to make its fight against the enemy as powerful and effective as dollars will make it.

La Follette, and his kind of the Caucasian race, impeded the efforts of the government in its appeal for funds, but there was nowhere any member of the Negro race engaged in such reprehensible tactics.
In Duluth the Negroes subscribed liberally of their means. In one hotel alone, \$550 was subscribed. Then, within the week, Duluth has seen some worthy representatives of the race of Douglass and Dunbar, Carruthers and Booker Washington, enroute for service in the national army. They will make good. Let no one doubt that.

In Kansas City, Mo., where of course the Negro race is very strong numerically as compared to Duluth, \$100,000 was subscribed by its members for the second Liberty loan.

THEY SAY

—That the average school teacher is ALWAYS "broke." Why?

—That "cullud" folks am eatin' spah ribs, bones and all dese days. Hoover says: Save!

—That there are yet some fool Negroes in Kansas City who boast of their color. Ain't that silly?

—That when the Government says: Eat more corn bread, it's tickling "de cullud people." Dat's whah we shine.

—That the Negro who tries to "make it" by sharp practices usually comes to an inglorious end. Be square.

—That the average "big to do" Negro is the one who will not pay his debts. Takes all he makes to make an outside show.

—That there's to be a widows' ball next month to which none will be admitted but widows. Well, if you want a good time, that's where to go.

—That there is less religion and more grand standing in one certain big Church than in all the other churches in town combined. Guess which.

—That if the Negroes of Kansas City will rally to our hospital campaign as they did to the Liberty Bonds, we will raise the \$20,000 needed in four days. Let's do it.

—That a certain woman has a habit of calling another woman and telling her to have her husband call her on some important business. Some day the wife will "call" and she'll have a full hand of clubs when she does.
